

Datasheet stretch film, handrolls, item no. 1020665

Article:	Handrolls. Standard, on 50 mm core
Width:	500 mm
Length:	300 m
Thickness:	20 micron
Weight:	3,06 kg per roll
Color:	transparent
Material:	LLDPE = Linear Low-Density Polyethylene
Quality/Production:	Cast-Film, Standard
spec. Weight:	approx. 0,92 g/cm²
Recycling:	without problems, 100 %
Recycling material class:	04 LDPE
Recycled content:	0 %
Customs number:	39201024
Country of origin:	European Union
Core diameter:	50 mm
pallet-units:	198 rolls per Euro palett, 6 rolls per box

Based on the declarations and evidence provided by our upstream suppliers, we hereby confirm compliance with the material and regulatory limits listed below for the product mentioned above:

1. Heavy metal limits (Art. 5 Para. 4 PPWR / Directive 94/62/EC)

The sum of the concentration levels of lead, cadmium, mercury, and hexavalent chromium in the supplied items and their components does not exceed the legally established limit.

2. REACH compliance (Regulation (EC) No. 1907/2006) The supplied items meet the requirements of the REACH Regulation. To the best of our current knowledge, they do not contain any substances from the current REACH Candidate List (SVHC – Substances of Very High Concern) in a concentration exceeding 0.1% **by weight (w/w)**. Information obligations pursuant to **Art. 33 of the REACH Regulation** are strictly monitored.

3. POP compliance (Regulation (EU) 2019/1021)

The items comply with the requirements of the Regulation on Persistent Organic Pollutants (POP). The substances listed in Annexes I and II of this Regulation are not contained in the products or fall under Art. 4, 1 b). **4. PFAS restrictions (Art. 5 Para. 5 PPWR).**
