

CERTIFICATE OF CONFORMITY FOR FOOD CONTACT CAPSULES SCREWCAPS

COMPOSITION :

The screwcaps we supply are made of aluminum alloy type 3105 or 8011.

FOOD CONTACT APPROVAL :

Internal varnish, plastic inserts and the internal side of liners comply with the following regulations:

European legislation :

- **Regulation 1935/2004** on materials and articles intended to come into contact with food.
- **Regulation 10/2011** on plastic materials and articles intended to come into contact with foodstuffs and amendments included **Regulation 2025/351**.
- **Regulation 1895/2005** on the restriction of use of certain epoxy derivatives in materials and articles intended to come into contact with food.
- **Regulation 2022/1616** : recycled plastics in scope of Regulation. 2022/1616 are not used.

French legislation :

Decree n ° 2007-766 dated 10 May 2007 (and its modifications) applying the consumer code with regard to materials and articles intended to come into contact with foodstuffs.

American legislation :

FDA / 21 CFR 175-177.

ABSENCE OF BISPHENOL, PHTHALATES :

According to the information given by our suppliers, the liners, in direct contact with food stuff :

- Are manufactured with material free from Bisphenol A, F & S, with regard to law n° 2012/1442.
- Without introduction of Bisphenol A, F & S during the manufacturing process of the liners.
- Are PVC free.

CAS N°	Chemical name
80-05-7	Bisphenol A
054208-63-8	Bisphenol F
80-09-1	Bisphenol S

- Do not contain phthalates (see following list) according to Directive 2007/19 / EC :

CAS N°	Chemical name
84-62-2	Diethyl phthalate (DEP)
117-81-7	Bis & Di(2-ethylhexyl) phthalate (DEHP, DOP)
131-11-3	Dimethyl phthalate (DMP)
84-74-2	Dibutylphthalate (DBP)
117-82-8	Bis(2-methoxyethyl) phthalate
117-84-0	Di(n-octyl) phthalate (DNOP)
28553-12-0	Diisononyl phthalate (DINP)
26761-40-0	Diisodecyl phthalate (DIDP)

110-05-4	Di-tert-butyl peroxyde (DTBP)
85-68-7	Butyl benzyl phthalate (BBP)

CAS N°	Chemical name
9002-86-2	PolyVinyl Chloride (PVC)

MIGRATION TEST :

Following migration tests carried out by an accredited laboratory (according to the recommendations of directives 82/711 / EC and 85/572 / EC), **the overall migration values are lower than the regulatory limit value of 60 mg / kg.**

ABSENCE OF ALLERGENIC PRODUCTS :

The closures that we provide do not contain any of the allergenic substances recognized as such (see DGCCRF fact sheet on allergens - list updated in May 2019 and regulation n° 1169/2011).
None of these substances are intentionally introduced during the manufacturing process.

NO RISK OF CONTAMINATION RELATED TO THE FOLLOWING POINTS :

- The non-use of substances of animal origin in the manufacture of seals guarantees the absence of risk of transmission of spongiform encephalopathy (BSE / TSE) by the capsule.
- Do not contain genetically modified organism (GMO) according to regulation n° 1829/2003 / CE.
- Do not undergo any ionization treatment in compliance with directive 1999/2 / EC.
- Do not use nanotechnology in the manufacturing process, in particular to respect the principle of inertia provided for by EC regulation n° 1935/2004.
- Plastic packaging bag certified bisphenol A-free, phthalate-free, and latex-free.

LACK OF SPECIFIC SUBSTANCES :

According to the information provided by our suppliers, the closures are manufactured with raw materials which do not contain or introduce the following substances during the manufacturing processes.

The closures are manufactured in our manufacturing workshops without intentional introduction during the manufacturing process of the following substances:

CAS N°	Chemical name
108-78-1	Melamine
7782-50-5	Chlorine
Multiple	Latex

HACCP & HYGIENE:

Our products are manufactured in accordance with the requirements of regulation 2023/2006/CE on good manufacturing practices for materials and articles intended to come into contact with foodstuffs.

COMPLIANCE WITH ENVIRONMENTAL REQUIREMENTS:

All the constituents of the capsule including the inks and external varnishes meet the requirements relating to packaging and packaging waste :

- **European Directive 94/62/EC**
- **Articles R543-42 to 543-52 of the code of environment**
- **Decree 2007-1467 of 12/10/07** (repealing decree 98-638).

The heavy metal content (Pb / Cd / Hg / Cr6) is less than 100 ppm, in accordance with CONEG regulations.
The closures are recyclable by existing adapted channels. (100% recyclable aluminum and recycling or energy recovery of the other components)

INTENDED USE :

Our capsules for wine and alcohol are made for glass finish conforming to European Standard (N.F, C.E.T.I.E, C.E.N) or other glass finish approved by Amcor Flexibles Capsules and intended to come into contact with alcohols, wine, oils, vinegar, liqueurs and syrups (see liner or capsule technical data sheet) respecting the conditions of use and storage of the capsule between 15°C and 35°C.

Any special requirements must be the subject of specifications validated by both parties.
